SUMMARY

Software Engineer with 1+ year of experience in frontend and full-stack web development using ReactJS, JavaScript, Node.js, SQL, and MongoDB. Experienced in building scalable, responsive web applications, RESTful API integration, performance optimization, debugging, and testing. Strong understanding of SDLC, clean code principles, and collaborative development using Git in Agile environments.

EDUCATION

• Bachelor of Technology, Computer Science & Engineering
Dronacharya College of Engineering (2021 - 2025)
• Senior Secondary Education
Shri Daulat Ram Public Sr. Sc. School, Delhi, India (2020 – 2021)

SKILLS

- **Frontend:** ReactJS, JavaScript, HTML5, CSS3, Bootstrap, Next.js
- **Backend:** Node.js, RESTful APIs
- **Databases:** MySQL, SQL, MongoDB
- **Tools:** Git, GitHub, VS Code

EXPERIENCE

Software Engineer | eCareSoftech, Jaipur (Aug 2025 – Present)
• Developed scalable web applications using ReactJS, Next.js, Node.js, and SQL, supporting 1,000+ users.
• Built reusable components and optimized performance, improving page load speed by 25% and reducing development effort by 30%.
• Integrated REST APIs and performed debugging and testing, reducing production issues by 20%.

Java Full Stack Trainee | DUCAT, Pitampura (Jan 2024 – July 2024)
• Built full-stack applications using Java, ReactJS, JavaScript, HTML, and CSS with end-to-end functionality.
• Managed MySQL databases, performed CRUD operations, and optimized queries to improve efficiency by 20%.
• Developed projects using MVC architecture and REST principles.

Software Engineer Intern | Maruti Suzuki India Limited, Gurgaon (Jan 2024 – Jun 2024)
• Developed web modules using ReactJS, JavaScript, HTML, and CSS following modern UI standards.
• Supported backend logic with Node.js and SQL and optimized reusable components, reducing development time by 15%.
• Assisted in testing and debugging to improve system stability.

PROJECTS

BharatCrafts – Full-Stack E-Commerce Website | Full-Stack Developer
• Built an e-commerce platform using ReactJS, Node.js, and MongoDB with authentication, product management, and order tracking.
• Implemented cart system, admin inventory dashboard, and user order history with REST API integration.

Karigar – Business Website | Frontend Lead
• Developed a responsive ReactJS and Bootstrap website promoting local artisans.
• Optimized UI performance, accessibility, and cross-browser compatibility by 30%.

ACHIEVEMENTS & CERTIFICATIONS

• Hackathon Achievements: IIIT Delhi (2nd), IIT Jodhpur (AIR 7), DCE (2nd), KRMU (Finalist)
• Certifications: Web Development (Internshala), Web Designing (DSSD), C Training (IIT Bombay), React (HackerRank), NCAT Excellence
